PROFESSIONAL SUMMARY

Dynamic and results-oriented Certified Java Professional with extensive experience in core and advanced Java. Proven track record of designing and implementing efficient, innovative solutions that consistently exceed project goals and client expectations. Strong foundation in Java, Spring, SQL, HTML, and CSS. Adept at fostering seamless collaboration with cross-functional teams through excellent communication skills. Seeking a challenging role to leverage technical expertise and contribute to the success of cutting-edge projects while continuously expanding my skill set in a dynamic and collaborative environment.

WORK EXPERIENCE

Junior Software Developer | Vinsys

Nov 2023 - Mar 2024

The Government initiative, in partnership with Vinsys, offers a 16-week training program for Junior Software Developers. Training covers Java, Angular, Spring, HTML/CSS, JavaScript, and TypeScript. The curriculum also includes agile and scrum methodologies, preparing participants for success in software development.

PROJECTS

Employee Management System

[Git-Hub Link](#)

- Initiated and executed an Employee Management System using Java and Spring for backend, SQL for database management, and HTML/CSS for frontend design. Integrated features like attendance tracking and payroll management, ensuring data security. Demonstrated proficiency in full-stack development and system integration.

Programming Language Used - Java, Spring, HTML and CSS, SQL

Keylogger

[Git-Hub Link](#)

- This is my university project it involved developing a keylogger using Python. The keylogger captures keystrokes via software and logs them to a secure file. Key features include stealth operation, real-time logging, and data encryption for security. This project demonstrated my skills in Python programming, cybersecurity, and data handling.

Programming Language Used - Python

EDUCATION

2019 - 2023 Bachelor's Degree at **Rajgad Dnyanpeeth Technical Campus (Pune University)**
(CGPA: 7.43/10.0)

2019 Class 12th **MSBSHSE** (Percentage: 74.62)

2017 Class 10th **MSBSHSE** (Percentage: 72.80)

SKILLS

Programming Skills - HTML, CSS, JavaScript, TypeScript, Angular, Core Java, Spring, SQL.
Some More Skills - Command Line, Git and Github

LANGUAGE

English, Hindi, Marathi
